

Environment Policy

Stark Aviation is an aviation refuelling and fuel supply company. We provide a timely into-aircraft and bulk aviation fuel delivery service, committed to maintaining best industry environmental practices.

We strive for this by:-

- **Dealing, with preference, to suppliers that use best environmental practices;**
- **Ensuring all employees are aware of this policy;**
- **Provide training opportunities to all staff including environmental issues;**
- **Sustainable business with our clients by offering a “no damage to person or property” policy;**
- **Complying with all local and federal regulations;**
- **Reviewing our policies regularly to ensure up to date guidelines;**
- **Risk assessments of all offfield work with a view to sound environmental and human safety;**
- **Use technology and resources to reduce the company’s earth footprint;**
- **Maintain vigilance and resources to minimise environmental impacts;**
- **Communicate to all staff that they share a common responsibility to uphold and improve these guidelines.**
