Public Notice – Council opens New Waste Disposal Area at the Wilcannia Landfill

Central Darling Shire Council is pleased to advise that a new waste disposal area will open tomorrow, Wednesday 8 May, at the Wilcannia landfill.

The Council is working with the community, business owners and contractors to lead Wilcannia towards an efficiently operating landfill to make it more user friendly, protect the environment and extend the life of the landfill.

The new area will result in more efficient access to the waste disposal area. It will also improve operations and general waste disposal in Wilcannia.

Signage and temporary fencing will be installed directing residents to and from the waste disposal area.

Council asks that people using the landfill site to follow all signage entering and departing the disposal area and for their own safety to deposit rubbish in only the designated area.

Ends

Regards

Greg Hill
